

## Guide for authors

### Description

Modern Arabic Review of Fundamental and Applied Physics is distributed free of cost both at the National and International platforms. If you wish to have a print copy of the latest edition of this journal, please send an email to [contact@marefa-review.org](mailto:contact@marefa-review.org) we will send you a complimentary copy of the journal free of cost.

Modern Arabic Review of Fundamental and Applied Physics is publishing articles on theoretical and experimental domains with all the branches of physics. Subject areas may include:

- Astrophysics and High Energy,
- Accelerator Physics,
- Material Sciences,
- Nano Science, physics of condensed matter,
- Atomic, molecular and optical physics,
- Nuclear Physics and spectroscopy,
- Renewable energies,
- Sustainability and environment.

The journal has a distinguished worldwide reputed Advisory and Editorial Board with extensive academic qualifications, ensuring that the journal maintains high scientific standards. It will be a matter of great prestige for us to have your esteemed Research Paper(s) in Modern Arabic Review of Fundamental and Applied Physics. Looking forward to your esteemed research paper

### Submission of manuscript

All manuscripts have to be submitted online at <https://www.asjp.cerist.dz/en/submission/247>.

You have to register once only and will receive a password which allows you to track all your contributions. Before you begin, ensure that the following items are present and respected

#### 1. Originality and plagiarism

The authors should ensure that they have written entirely original works, in case of using the results of other researchers or words, check that it has been referenced appropriately.

## **2. Authorship of a manuscript**

Authorship should be limited to those who have made a significant contribution; they should be listed as co-authors. Any other participation in certain substantive aspects should be named in the acknowledgement section. Insure that all participant have seen and approved the final version

## **3. Acknowledgement of sources**

Collate acknowledgements in a separate section at the end of the article before the references. List in this section those individuals who provided help during the research. If The work was supported (ex: institutions), Please List all funding sources

## **Review process**

All contributions will be initially assessed by the editor for appropriateness for the review. Papers considered appropriate are then sent to independent expert reviewers to assess the scientific quality of the paper. Manuscripts are entered into the review process with the understanding that the same work has not been published or submitted for publication elsewhere. The identity of the reviewers will not be revealed to the authors or to any other part of the review process.

## **Submission of revised manuscripts**

Revised manuscripts should ensure that files submitted at this stage contain the final version of their manuscript.

## **Publication decisions**

The Editor is responsible for the final decision regarding acceptance or rejection of articles.

## **Accepted manuscripts**

Before any manuscript can be recognized for publication the author(s) is (are) requested to fill out a copyright agreement form, by which the author(s) agree(s) to grant an exclusive and right to reproduce and distribute the article in any form anywhere in the world.
