

نموذج من إسهامات محمود شكري الألوسي في مجال الدراسات الأنثروبولوجية

Etudes.....

Abstract:

A sample of Mahmoud shokri El-Alloussi's great deeds in the field of the anthropological studies.

In this article I want to represent some work and anthropological studies, which makes by Moslem scientists and Arab researchers, and I have choice (Mahmoude chokri álaoussi) like an example, it is made an anthropological study according to Arabic, is written in his book which called (boloughe él Arab fi maàrifat áhwal él Arab).

This book to constitute of three volumes, in this book álaoussi with discript social life in the Arabic, and the relugieuse life before Islam and the cultural and scientific life, in this article I represented the rules of the anthropological method which to use by (Mahmoude chokri álaoussi).
