- We Invite authors to read and follow up these recommendations carefully;

3 - Evaluation of the Article:

3-1. First step: Examine the article secretly at the level of the reading committee of the Journal, which meets regularly and intervenes in the pre-evaluation stage. The committee takes a decision to qualify the articles before sending them to the assistant editors. If the decision is negative, the article will be rejected on the

platform and informed the author the reason for the rejection. The author can resubmit it taking into account the recommendations made;

3.2. Second step: In the event that the article is eligible for the evaluation (prepared according to the journal template and under the terms of publication), it will be sent in an encrypted state to the Specialist Associate Editor, who in turn will submit it to two reviewers on its network. The reviewers will be responsible for judging the paper according to a standardized evaluation form available on the ASJP platform.

Note: The Associated Editor can also evaluate the article if he desired. The secretary of Journal provides the link between the authors of the articles and the Associated Editorials.

4. Period of Evaluation of Articles:

It also includes the copyright of the Journal and includes a letter of undertaking to which the author of the article explains that the intellectual property belongs to the Journal only.

8. Send the article

10 - Notice of Rejection of the Article:

If it turns out that the article does not respect the template of the Journal and the conditions of publication. The author will be notified that the article has been rejected.
